Contraception fund

Self-determined and safe contraception is a human right!

Therefore, we are pleased that we can support women in Hagen who are in difficult financial situations (SGB II, rent subsidy, children's supplements, ...) for financing long-term contraceptives.

Are you interested? This is how you can proceed:

Choose a suitable contraceptive with your gynaecologist, get an estimate of cost and if possible a prescription.

Make an appointment at the AWO Counselling Centre for Pregnancy Problems and Family Planning and make a request for cost coverage.

If you are not yet sure about your choice of contraceptive, we can advise you about different contraceptives, their effectiveness and their advantages and disadvantages in different phases of life.
